## Front Load Housing FLH-20

Cameron Front Load Housing Model FLH-20 is designed for use in both commercial and industrial applications. It is used in conjunction with the Cameron MRM-18 modules and comes complete with a built-in space for a 2 inch pre-filter. The single housing is rated for a maximum airflow of 2,000 CFM and holds four of the MRM-18 modules. The modular design allows for built-up banks to accommodate higher airflow. The 20" depth makes it ideal for use in applications where space is limited.

| SPECIFICATIONS  | WEIGHT |
|---|--------|
| Housing: 16 gauge CRS w/ black powder finish              | 39 lb  |
| Housing with 4 MRM-18 empty modules                       | 71 lb  |
| Housing with 4 MRM-18 modules filled with standard carbon | 147 lb |
| Housing with 4 MRM-18 modules filled with ZK6 media       | 223 lb |
